

# CHASE *The* Flush

Chase the Flush is an exciting new card game where players and the dealer receive three hole cards that they combine with four community cards to make the longest possible seven-card flush. Card rankings Ace (high) - 2 (low) are used to break ties between hands with the same number of flush cards.

## HOW TO PLAY

### ANTE X-TRA BONUS

Make an Ante and X-Tra Bonus wager to begin the game. Both bets must be equal.

### ALL IN

- After receiving three hole cards, players can either bet 3x their Ante or check.
- After seeing the two-card flop, players can either bet 2x their Ante or check.
- After seeing the Turn and River cards, players can either bet 1x their Ante or fold.

The dealer qualifies with a 9 high three-card flush or higher. If the dealer does not qualify, all remaining Antes push. When the hands tie, the All In, Ante, and X-Tra Bonus bets push. \*See *paytables for odds*.

### X-TRA BONUS

Wins when the player wins with five or more cards of the same suit.

### SAME SUIT

Wins if the player has a four-card flush or higher. Player does not have to win the hand to win the Same Suit Bonus.

## BONUS SPIN

---

Play the optional Bonus Spin side bet and get a three-card flush in your first-three cards to spin the wheel and win additional prizes!

## SHARE THE WEALTH

---

Even without getting a 3-card flush in your 3 original cards, players have a chance to win a prize if the wheel lands on a slice with multiple payouts. The player with the 3-card flush wins the larger amount and anyone at the table who made the Bonus Spin side bet wins the secondary amount.

---

## OPTIMAL STRATEGY

---

### Before Flop:

- 3x any three suited hole cards
- 3x any suited Ace or King
- check all others

### After Flop:

- 2x three card flush or better
- 2x two card flush draws using whole-cards averaging Jack or higher
- check all others

### After River:

- 1x 4-card flush or better
- 1x 3-card Jack-high flush or better
- 1x 3-card flush except against two higher suited cards on board
- fold all others
