

2 3 5 Stud Poker™ is a five-card poker game played against a payable and not against the dealer or other players. Each player will receive three cards and use the two community cards to make their best five-card poker hand. 2 3 5 Stud Poker also offers the optional Hat Trick and progressive bonus wagers.

GETTING STARTED

Make equal wagers on the bet spots marked 2 Card Poker, 3 Card Poker and 5 Card Poker. You may also make the Hat Trick and progressive bonus wagers. Once all wagers have been made, the dealer will give each participating player their two-card starting hand to review.

You now have a choice:

1. Make an equal wager on the Raise bet spot under your 3 Card Poker bet.
2. Or check

Once you have made your Raise wager or decided to check, the dealer will give players their 3rd card to review.

You now have a choice:

1. Make an equal wager on the Raise bet spot under your 5 Card Poker bet.
2. Or check

The dealer will now turn the two community cards face up.

WINNING AND LOSING

Starting from their right and working counter-clockwise, the dealer will reveal each player's three-card poker hand and combine them with the two community cards to make the best five-card poker hand.

Payouts are based on the rank of your 2-card poker hand, 3-card poker hand and 5-card poker hand. See layout for odds.

Note: All winning wagers pay odds.

Hat Trick

Your Hat Trick wager wins if you win all three wagers. See layout for odds.

PROGRESSIVE PAYOUTS

Progressive winners are determined by combining your first three-card poker hand and the two community cards for the best five-card poker hand. The progressive wager qualifies you for payouts from the progressive jackpot. See payable for odds.

ENVY BONUS

Top hands trigger Envy Bonus payouts. See payable for payouts. You can win multiple Envy Bonus payouts in a round, but you cannot win an Envy Bonus payout for your own hand.
